

6.75L NA OIL & GAS

107 HP @ 1800 rpm – NG

FEATURES

Engine & Block

- Cast Iron Block
- One-piece forged crankshaft
- Separate cast iron cylinder heads and wet cylinder liners
- Forged Connecting Rod

Cooling System

- Radiator and hoses supplied separately
- Thermostatically-controlled system with belt driven
- Water pump and Pusher/Puller fan

Lubrication System

- Flat bottom high capacity oil pan (27 L)
- Cartridge oil filter
- High capacity gear driven lube oil pump

Engine Control System

- Proven ECM, Fuel System and Engine Control
- Engine Protection
- CANBUS J1939 Standard Interface
- Telematics Compatibility

Air Intake & Exhaust System

- Rear Mounted, Replaceable Dry Air Cleaner
- Air Cleaner Restriction Indicator

Electrical System

- 12V electric starter motors
- Optional low voltage battery charging alternator

Flywheel & Housing

- SAE 1/SAE 3 flywheel housing and 11.5/14" flywheel
